

Specialized Bibliographies Education in the U.S.

1. Hlebowitsh, Peter S. **American education: purpose and promise.** New York : Wadsworth Publishing Company, 1997.

370.973

HLE

The text deals with events and people that influenced curriculum formulations, with the focus fixed on questions about what we should teach, how we should teach, and why we should teach. Diversity is emphasized throughout the text. The authors use many real-life vignettes and examples and applications.

2. Heslep, Robert D. **La educación en democracia: la función de la educación en el Estado democrático.** Argentina : Grupo Editor Latinoamericano, 1993.

370

HES

El propósito de este libro es analizar el papel moral de la educación en el Estado democrático sobre la base de una adecuada complementación de teorías morales, políticas y educativas.

3. Sussman, Leonard R. **The culture of freedom: the small world of Fulbright scholars.** Maryland : Rowman & Littlefield Publishers, Inc., 1992.

378.3409

SUS

Leonard Sussman provokes a discussion of the benefits and detriments of the Fulbright program as he seeks to use its method and philosophy to influence national, international, and cultural policy.

4. Oakley, Francis. **Community of learning: the American college and the liberal arts tradition.** New York : Oxford University Press, 1992.

370.11

OAK

The author makes a strong case for the values and achievements of the liberal arts in providing a sense of historical continuity and a broader framework in which to come to terms with the problems of the modern world. This study describes the values and achievements of the liberal arts in an American university context.
